## Summary:

- ProsysPOS provides a complete solution for the restaurants to manage guest orders, send instructions to kitchen, track daily, weekly sales. ProsysPOS supports multiple kitchen and receipt printers from the same terminal.

### System Functions:

- ProsysPOS allows for hierarchical menu navigation and lets the wait staff enter the order quickly.
- Support for multiple floors. Takeouts, Dine In, and Bar can be setup separately to track different orders.
- Send order information to Kitchen Printer
- Support for Open Food, Open Drink and Tax Exempt.
- Special Instructions can be added through the on screen keyboard.
- Gratuity can be configured at different rates.
- Support for Cash, and Credit tips, and unlimited media types like cash, visa, MasterCard etc.
- Print Check
- Payment Gateway support (YourPay, PayPal, and LinkPoint)

### Order Entry:

The screenshot shows the ProsysPOS - Waiter 1 interface. At the top, there are fields for Ticket (14052) and Table (1). Below these are several function buttons: Back, Check, Tables, Settle, Move, Main Menu, Orden, and Fire. The main area is a grid of menu items categorized by color:
 

- Aperitivos** (purple)
- Bevidas** (green)
- Burritos** (light green)
- Cemitas** (pink)
- Cerveza** (yellow)
- Chilaquiles** (grey)
- Cockteles** (red)
- Cocnac** (black)
- Cocnac** (purple)
- Cokteles** (green)
- Cokteles** (green)
- Cubeta** (light green)
- Cubeta** (white)
- Enchiladas** (olive)
- Ensaladas** (white)
- Fajitas** (pink)
- Flautas** (yellow)
- Huevos** (cyan)
- Mariscos** (grey)
- No Alcohol** (white with red circle)
- No Alcohol** (yellow)
- Ordenes Extras** (orange)
- Piatillos** (dark green)
- Postres** (purple)
- Quesadillas** (light green)
- Soda Americana** (light green)

 To the right of the menu grid is an order entry window with columns for Item, Units, and Value. It contains one item: 'iphone' with 1 unit and a value of \$475.00. Below the grid and order entry window are fields for Taxes, Subtotal (\$475.00), and Total (\$475.00). On the far right, there is a vertical toolbar with buttons for Up, Down, Delete, Edit, Course Break, Prep Notes, Open Food, Open Drink, Apply Discount, Flat Discount, and Tax Exempt.

- Daily Sales Report breakdown by media type (cash, credit), and tips breakdown.
- Daily Sales Reports can be printed at the receipt printer without requirement for extra Hardware.
- Support for Epson, Citizen, Star, Ithaca, and JavaPOS printers.
- Support Windows/Linux operating systems.
- Support for tracking Inventory, and detailed stock availability report

### Takeout Orders:

- Customer information can be retained when entering takeout orders
- Lookup based on phone number
- Customized printing of Customer Information on Receipt, and Kitchen Printers

The screenshot shows a software window titled "ProsysPOS - Waiter 1". On the left side, there is a form with the following fields: "Phone" (containing "3474957354"), "FirstName" (containing "EWeb"), "LastName" (containing "Computing"), "Street1", "Street2", "City", "Zip Code", "Email", and "Credit num". Below these fields are three buttons: "Cancel", "Next", and "Get Items". In the center of the window is a numeric keypad with buttons for digits 1-0. Below the numeric keypad is a QWERTY keyboard layout with yellow buttons for letters Q through P, A through L, and Z through M, along with buttons for Backspace, Shift, and Space.
